The intensity of the past three days' excitement, would seem, axisumated the assergies of speculatio and to-day, as though by common consent, the spedistors " rested from their labors," the result bely such a state of calm and unist as only follows the most violent action. We have rarely noted a duller day, as a glance at the reported sales will testify but we found nobody disposed to complain, for as

During the early part of the day, before the New York report, holders of Brendstoffs were vary firm at an advance of 105212 on Flour and 32340 on Wheaf, Corn being he'd 1220 higher, and sales were made to the few lunctures at these three the o the few inquirers at these figures. the feeling became considerably unsettled, and the market closed quiet and lower.
